THE above Periodicals are reprinted in New-York immediately on their arrival by the British steamers, in a beautiful clear type on fine white paper and are faithful copies of the originals —Blackwood's Magazine being an exact fac simile of the Edinburgh edition

The wide spread fame of these splendid Periodicals renders it needless to say much in their praise As literary organs they stand far in advance of any works of a similar stamp now published, while the political complexion of each is marked by a dignity candor and forbearance not often found in works of a party character

They embrace the views of the three great parties in England—Whig Tory and Radical—Blackwood and the London Quarterly are Tory, the Edinburgh Review Whig and the Westminster Radical The Foreign Quarterly is purely literary being devoted principally to criticisms on foreign Continental Works

The prices of the Re-prints are less than one third of those of the foreign copies and while they are equally well got up they afford all that advantage to the American over the English reader

The number of Persons committed to the Watch House by me from March 1845 to March 1846 and who were not brought before any Court but by me discharged is one hundred and three, this whole number were drunk, or so much so that they could not take care of themselves in the Street The number of persons committed to the House of Correction by me that year, I believe, was thirty six, of this number however some were committed more than once and in my opinion Rum was the cause of their being sent there in three fourths of the cases I say rum for that covers the whole catalogue of liquors The number committed to the County Jail during that year by me was about 40 For various crimes not more than one out of ten of that number but what have stated to me that liquor was the cause of their rum, and from my own knowledge I can state that the greater part of them committed their crimes when crazy with liquor sent of whom are now in the State Prison Others were committed for stealing goods to sell for the purpose of buying rum.

The number committed to the Watch House in the night time and not included in either of the above numbers by the Watchmen and myself after the Watchmen were on duty for that year was about three hundred of which number at least seven eighths were for drunkenness in which situation they were picked up from the streets as is stated to me by the Watchmen About twenty five other persons were arrested by me during that year, who have not been reckoned in either of the above lists, that were discharged in consequence of the absence of witnesses or by paying their fines, most of whom were arrested for fighting done when they got their spirits up by pouring other spirits down for it is a rare occurrence for sober men to fight in the city of Bangor

I would here state that the numbers referred to in this document include only those that were arrested by the Watchmen and myself Those arrested by others I have no account of as the Order did not cover that ground The whole number for that year was over five hundred, and I have no hesitation in stating from my own knowledge that more than seven eighths of that number were, when arrested drunk, or the worse for liquor so much so as not to be capable of taking care of themselves and I would further state that nine tenths of all crimes committed in this city for the last seven years, during which time I have been an officer has had its source in liquor

All of which is most respectfully submitted

To Wine-drinkers.

It is not generally known that wine *baths* are quite common in France—nevertheless, such is the case The Duke of Clarence is not the only gentleman who has enjoyed an immersion in Malmsey Punch has tried it with the very best Sherry Only imagine! Punch—the veritable English Punch swimming in French wine, and kicking, and plunging, and laughing, until the tears ran down his cheeks, and never thinking of the expense—a five franc piece!

"What! a five franc piece for a tub full of wine? Hurrah! *Vive la France!*"

"Gently—gently At least *fifty* others bathed in the same wine—*after* Punch The keeper of the *bagne* had a preference for Punch, and gave Punch the first dip *After* him came fifty others—making in all *fifty* five franc pieces. A good price for the tub

"The wine was then thrown out?"

"Not at all Not so, by any means"

"What then?

"Bottled! Bottled, of course."

"Bottled! And for what purpose!"

"Why, for drink to be sure"

"Drink! Who would drink such stuff?"

"Why, the English do—the Yankees do! The latter import it in large quantities It is a great favorite in Yankeeland"

Now, dear wine-drinking friends, anti-temperance friends, when you next smack your lips over a glass of Champagne or Burgundy, reflect that a Lyonese alderman may possibly have bathed in it, and see if the reflection will assist you in appreciating its flavor

Honor to Labor.

From the German—By Mary Howitt

Whene'er the pondrous hammer wields
Whoever compels the earth to flourish,
Or reaps the golden harvest fields,
A wife and little ones to nourish,
Whoever guides the laden bark,
Or, where the busy wheels are turning
Toils at the loom till after dark
Fond for his white haired children earning—

To him be honor and renown!
Honor to handicraft and tillage!
To every sweat drop falling down
In crowded mills and busy village!
All honor to the plodding swain
Who holds the plow—Be't to him awarded
To him who works with head and brain
And starves! Pass him not unregarded

Whether in chambers close and small
Mid musty tomes he fancy smothers,
Or of the trade that enslaves thrall
He drains wrinkles, or sings for others,
Or, whether he, for wretched pay,
Translate the trash which he despises—
Or, learning sport, puts day by day,
Dunce corp through classic exercises,

He also is a prey to care
To him the said "Stay thy or borrow"
Gray grows betimes his raven hair,
And to the grave pursues him sorrow!
With hard compulsion and with need,
He like the rest, must strive untiring,
And his young children's cry for bread
Blanks his free mind a glad aspiring

Ah such a one to me was known
With heaven wand'ring his course ascended,
Yet, deep in dust and darkness prone,
Care, sordid care, his life attended
An exile, and with bleeding breast,
He groaned in his severest trial,
Want goaded him to long unrest,
And scourged to bitterest self denial

Thus heart sick, wrote he line on line,
With hollow cheek and eye of sadness,
While hyacinth and leafy vine
Were fluttering in the morning's gladness
The throstle sang and nightingale,
The soaring lark hymned joy and pinding—
While thought's day laborer, worn and pale,
Over his weary book was bending

Yet though his heart sent forth a cry,
Still strove he for the great silent,
"For this," said he, "in poesy,
And human life this fierce ordeal!"
And when his courage left him quite,
One thought kept hope his heart alive in,
"I have preserved my honor bright,
And for my dear ones I am striving!"

At length his spirit was subdued!
The power to combat and endeavor
Was gone, and his heroic mood
Came only faintly, like fever
The Muses' lyre, sometimes at night
Would set his pulses wildly beating,
And his high soul soared toward the light
When night from morning was retreating

He long has lain the turf beneath
The wild winds through the grass are sighing
No stone is there, no mourning wreath,
To mark the spot where he is lying.
Their faces swell'n with weeping, forth
His wife and children went—God save them!
Young paupers—heirs to naught on earth,
Save the pure name their father gave them!

All honor to the plodding swain
That holds the plow—Be't too awarded
To him who works with head and brain
And starves! Pass him not unregarded!
To toil all honor and renown!
Honor to handicraft and tillage!
To every sweat-drop falling down
In crowded mills and lonely village!

THOMSON'S COMPOUND SYRUP OF TAR AND WOOD NAPHTHA.

CAUTION.

CONSUMPTIVES be on your guard if you would avoid imposition This unrivalled remedy for PULMONARY CONSUMPTION was first introduced to public notice in the fall of 1844 and since that time its gigantic strides to popular favor have been altogether unprecedented in the annals of medicine and thousands on thousands through out the land are living witnesses that no medicine ever discovered has effected such astounding cures of CONSUMPTION

The wonderful popularity of this remedy has induced sundry persons in various sections of the country to imitate it and offer for sale articles with nearly similar names this is deceiving the unsuspecting and practising a gross imposition on the invalid The proprietor therefore feels called upon solemnly to warn the Consumptive patient against all preparations purporting to be Syrups of Tar Syrups of Tar and Wood Naphtha &c, except the original preparation

THOMPSON'S COMPOUND SYRUP OF TAR AND WOOD NAPHTHA, the only remedy that can be relied upon for the radical and permanent cure of Pulmonary Diseases Delay or tampering with Pulmonary Consumption leads certainly to a fatal result therefore be not deceived but ask for Thompson's Compound Syrup of Tar and Wood Naphtha and take no other!

The Trojan Pioneer Cooking Stove.

THE subscribers after great expenditure have succeeded in bringing this admirable Cooking Apparatus to perfection and are now prepared to furnish the public with the very best article ever invented This Stove has had three of the highest premiums awarded to it that were ever awarded to a Cooking Stove, at the Fair of the American Institute in the City of New York a Silver Medal was awarded, at the great State Fair at Poughkeepsie, N Y 1844, where was the greatest competition ever known, the first premium was awarded to it and lastly at the Exhibition and Fair in Boston a Silver Medal was awarded to it. This celebrated Stove stands unrivalled in Boston New York and other places where it is in extensive use, 1500 of them were retailed by one establishment in Boston the past year, for all cooking and heating purposes it far surpasses any other Cooking Apparatus that can be produced The oven is extremely large being of sufficient capacity to admit six large pie plates or six large loaves of Bread, or even the largest pudding or bean pots in use at the same time In addition to the advantages it has over other Stoves for boiling baking washing frying heating irons, &c, it is acknowledged by all who use them that they have the best arrangement for Baking and Roasting that has ever been in use, the steam (from all the cooking) being carried off effectually This Stove being composed of two parts can be disconnected in one moment's time, so as to make two perfect Stoves which is of great value in warm weather as the summer stove which makes a handsome parlor stove may be used in the setting or dining room—and the other part in the back kitchen for Boiling or Washing, and in the [r]est of the year the two parts may be connected together as is represented above In fact it is impossible to tell one half of the story about this Stove, and all who feel interested to get a first rate Cooking Apparatus are respectfully requested to call at our Store and examine the above where will be found a first rate assortment of Cook Stoves Ranges, Hot-Air Furnaces and Fixtures, Tin Ware Sheet Lead, Pumps Lead Pipe, Fire Frames &c

A. D. DOWNS'

Vegetable Balsamic Elixir.

The great Northern Remedy for CONSUMPTION.

Also for the cure of Colds, Coughs Whooping Cough, Croup Bleeding at the Lungs, Bronchitis, Catarrh and all diseases of the Pulmonary or Bronchial Organs

IT is now more than ten years since this incomparable remedy was given to the public, with what success let thousands of restored invalids, with the universal encomiums of a grateful people afford a full and a gratifying evidence. I dead no medicine has ever with such UNIVERSAL SUCCESS ... its the ... It is its own recommendation, and to be valued needs but to be known

Its operation upon the system is marked and peculiar from that of most ... preparation ...

It is EXPECTORANT, and most essentially aids in the expulsion from the stomach and lungs of phlegm and pulmonic humors, through the process of expectoration or spitting

It is SUDORIFIC and promotes a healthy perspiration thus expelling by the pores of the skin those noxious fluids and impurities of the blood the retention of which in the system is a prolific source of suffering to the invalid

It is slightly CATHARTIC and usually corrects any costiveness attendant upon Pulmonary complaints while most similar preparations produce a contrary effect thus adding to instead of diminishing that difficulty (See statements of Mr Mea... [of] Mr Ross and others, in the pamphlets around)

We do not pretend that the Elixir is a specific for all the ills flesh is heir to, but we do say and can confirm by incontestible evidence, that for CONSUMPTION it is unequalled Hundreds by its use have been snatched from an untimely grave and hundreds more who delayed too long its use have found even then that relief from suffering which they had vainly sought from every other source

For hard and obstinate COUGHS whether produced by a mere cold the relic of a fever or the result of a more fixed and permanent pulmonary habit it is just the thing needful, as by its wonderful expectorant qualities it loosens the cough and enables the patient to raise with little effort what would otherwise cause hours of hard and laborious coughing Many persons testify that after having been unable to obtain more than a slight degree of rest for weeks they have on taking the first dose obtained a comfortable night's rest and by continuing its use, in a short time have been restored to health

OBSTINATE COLDS AND COUGHS it will usually cure in from two to five days

To persons afflicted with *WHOOPING COUGH* we would especially recommend the Elixir as it relaxes the cough, and saves much of the labor of hard coughing usually attendant upon that disease

ASTHMA We believe it is a generally acknowledged fact wherever the medicine is known that nothing so generally gives relief—in so great a proportion of instances effects a perfect cure in this distressing malady, as Downs' Elixir (See certificates of Mr Carleton Mr Perkins and others in pamphlet)

CROUP This dangerous malady in children may be cured by Downs Elixir We speak confidently, having never known, among the hundreds of instances in which it has been used, one where it has failed after a fair trial

BLEEDING AT THE LUNGS In this dangerous and formidable disease, the success of the Elixir has been such that we feel authorized in saying no preparation has ever met with similar success It has rarely, perhaps never been known to fail where it has been early resorted to and the directions faithfully followed (See statements of Mr Meader Mr Walker, Mr Downs Alderman Morton and others in the sheets and pamphlets)

In conclusion, we would say, never despair—Hope on hope ever! If you still doubt of its virtues its efficacy enquire of those who have used it Enquire of the Agents who sell it They generally, either from experience or observation know of its merits and when they tell you of its effects—what they have seen and what they know—are entitled to your confidence

Pamphlets and sheets may be had of agents gratis, giving a full description of the medicine, &c

Simply because bereft of the light of science he relies upon that divine instinct which impels him to select from the produce of the field and forest those remedies which Nature and Nature's God has bounteously provided for the solace of suffering and the mitigation and cure of disease—sowing them broadcast on every hill and valley Let those who impiously arraign the goodness of Divine Providence and point with a sneer to the multitude of invalids who lie groaning upon beds of sickness turn from the false lights of man and study the secrets of nature and they will adore that mercy which has so bountifully provided cure for every wound—*a remedy for all who seek one*

GENUINE

"WRIGHT'S INDIAN VEGETABLE PILLS."

These Pills as we before remarked operate by purgation—by thoroughly cleansing the entire system from all impurities, and making the invalid, in the homely but expressive phrase a new man whether the disease is INCIPIENT CONSUMPTION which insidiously attacks the Lungs, producing that dry, hacking cough so painful to the friendly ear, or Cutaneous, showing itself upon the skin in eruptions or blotches, whether the Kidnies or the Bowels be affected—*Wright's Indian Vegetable Pills* are equally efficacious in warding off danger Their expectorant cathartic, sudorific and diuretic qualities enable them to take hold of each form of disease

The *perfect safety* of the medicine is another all important quality and one which has contributed more than any thing else to its extension and popularity

In a word this medicine commends itself strongly to the patronage of the public, and its use bids fair to become, before long, ALMOST UNIVERSAL

CONSUMPTION CURED!

BUCHAN'S HUNGARIAN BALSAM OF LIFE.

THE

GREAT ENGLISH REMEDY

For Colds, Coughs, Asthma, and other Diseases of the CHEST and LUNGS.

BUCHAN'S HUNGARIAN BALSAM the Great English Remedy for Pectoral and Pulmonary diseases, still retains unrivalled and unsurpassed as the most pleasant, agreeable, and effectual cure of these formidable complaints now known to the civilized world

Three years of trial in the United States, during which time it has been distributed from Maine to Florida, has only served to establish its pre eminent merit as all parts of the country, as the great and ONLY RELIABLE REMEDY in the worst cases of Pulmonary disease and the best and most agreeable curative of all the slighter ills of colds, cough and all inflammation that can possibly be ...

TUBERCLES ON THE LUNGS! The Hungarian Balsam is the only popular remedy which has any power to dissolve, remove, and cure Tubercles on the Lungs ... ... the most ... ... generally esteemed we have the most ... ... that such is its direct and immediate effect in all cases where there is no natural organic defect In fact, so confident is the American Agent of its power to cure the worst form of this disease that he prefers (as he has frequently stated) that it should be used by invalids who have been PRONOUNCED INCURABLE by the most eminent physicians rather than by persons affected with some slighter form of disease—in order that its triumphs might be more apparent He boldly declares that it will cure Tuberculous disease and confidently ... its ... in the *worst of cases*

EXPECTORATION! Free Expectoration is the most important object to be attained in all attempts to cure diseases of the Chest and Lungs The Cough which is so distressing is simply the result of a desire to expectorate, and as long as foul matter exists in the air passage it will continue to irritate the membrane and provoke a cough Coughing is an attempt to throw off this matter, and expectoration gives great relief. Inability to expectorate in the latter stages of Consumption is the cause of death

The Hungarian Balsam is a *great Expectorant*—It dissolves the morbid and diseased matter in the air passage changes it from a thick, glutinous substance to a thin harmless fluid, and throws it off with the greatest possible ease and comfort to the patient There is no better medicine in the world, if its expectorant quality alone be considered

SPASMODIC ASTHMA Simple or Spasmodic Asthma, has no better remedy than the Hungarian Balsam This painful and destructive affection which resists almost every thing else, yields to the all powerful influence of this great remedy as readily as any other form of Pectoral disease

CONSUMPTION! Consumption has been graphically described as a "*Shrinking of one's self*" The Hungarian Balsam by its cleansing, warming, softening and animating power, produces, not shrinking but *expansion!*

Before its delightful influence, all chills, fever night sweats, costiveness, blueness of the nails, a hot flushed skin, an uncertain strength, emaciation and decline—disappear, like the poisonous dews of night before the glorious morning sun! This is no delusion but demonstrable fact, sustained by incontestible proof from all parts of the country

BE WISE TO DAY! Delay in any case of Consumptive tendency, is emphatically Death under all ordinary treatment The Hungarian Balsam is a great ANTIDOTE as well as CURATIVE. If you have any symptoms above described be advised in time
